

PHILIPS

Air Cleaner

25-79m² room size

Numerical air quality feedback

AC2887/30

Healthier Air, Always

AeraSense, making the invisible visible

AeraSense is an innovative technology with the accuracy and performance of a professional sensor. It senses harmful particles smaller than even PM2.5, ensures the purifier adjusts for cleaner air output and provides real time feedback.

High performance from start to finish

- Automatically monitors, reacts & purifies the air
- VitaShield naturally purifies UFP as small as 0.02microns
- 3 auto modes: General, Allergen, and Bacteria & Virus
- Aerodynamic architecture boosts efficient airflow

Reassurance of consistent clean air delivery

- Four-step color indicator shows quality of air
- Healthy air lock and alert for filter replacement

Designed for better user experience

- Low noise at Sleep Mode (20.5dba) - soft as a whisper
- Smart light control: adjust light to suit your preference

Global Certification for quality assurance

- Certified or tested by ECARF and Airmid*

Highlights

AeraSense technology

AeraSense is a sensor that accurately identifies fine particles that are even smaller than PM2.5 (including most common indoor airborne allergens). It then processes this information to ensure that the purifier's settings are at the ideal level for current air conditions, and for continuous re-assurance. Then gives you feedback of real time indoor air quality by showing PM2.5 level.

Low noise

When in Silent Mode, the Purifier turns down its fan speed and noise level to allow a comfortable night's sleep.

Smart light control

Both AQI and the light on the UI can be dimmed and/or turned off avoid light disturbance for consumers.

VitaShield IPS technology

VitaShield IPS with its aerodynamic design and NanoProtect Filter has a boosted clean air delivery rate up to 344 m³/hr* (according to China GB/T 18801-2015). It can effectively remove ultra-fine particles as small as 20nm, effectively reduce harmful gases such as formaldehyde, TVOC and odor. Removes up to 99.9% bacteria.

Aerodynamic design

Aerodynamic architecture boosts efficient airflow

Healthy air protect

The filter lifetime is accurately calculated based on indoor pollution level, air flow and operation time. The healthy air protect alert lets you know promptly when it is time to replace the filter. If the filter is not replaced promptly, the appliance stops functioning -to avoid ineffective purification. So you are assured of healthier air always.

Real time feedback

The 4-step color ring provide real time feedback of your indoor air quality.

3 auto modes

The Philips Air Purifier has 3 automatic purification settings: a General mode, an extra-sensitive Allergen mode, and an extra-

powerful bacteria and virus mode. You can choose your preferred mode to personalize and optimize your purification.

Certifications

Certified or tested by ECARF and Airmid*

Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO₂ emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas – Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.

Specifications

Design and finishing

Air quality sensor(s): Aerasense PM2.5 sensor
Color of control panel: Black
Fan speed indicators: Silent, Speed 1, 2, 3, Turbo
Material of main body: Plastic
Color(s): White

Performance

Filters out PM2.5: in one hour, >99 %
Filters out viruses: in 0.5 hr, 99.9 %
CADR (cigarette smoke): 333 m³/h
Room size: 25-79 m²

Technical specifications

Cord length: 1.8 m
Effective area: 24-41 m²
Frequency: 50/60 Hz
Power: 56 W
Sound level: 20.5-51 dB(A)
Voltage: 220-240 V

Country of origin

Made in: China

Replacement

AC filter: FY2420
HEPA filter: FY2422

Sustainability

Stand-by power consumption: <0.5 W

Weight and dimensions

Dimensions of packaging (LxWxH): 412 x 294 x 612 mm
Dimensions of product (LxWxH): 359 x 240 x 558 mm
Weight incl. packaging: 9.3 kg
Weight of product: 7.7 kg
